PROPERTY INVESTMENT SHOW EYES UAE CAPITAL TO REACH OUT TO POTENTIAL INVESTORS

DUBAI, UAE, September 10, 2014 /PRNewswire/ —

In the past few months, UAE's economy has benefited tremendously from its reputation as a stable country in the region; particularly working in favor of its non-oil sectors such as tourism and real estate. The transactions in H1 this year have also pointed towards a strong and evolving real estate sector in the capital Abu Dhabi as well as Dubai. The UAE real estate market has recovered from the 2008 property crash and envisages a positive growth in the coming years. With a number of projects in the pipeline and an increase in real estate transactions, UAE is now taking the central spot in the property investors' realm.

Keeping up with the current energy, the International Property Investor Show (iPI Show) in association with Listaproperty.com, a premiere real estate marketing portal based in Dubai, has chosen Abu Dhabi as the venue for its first ever edition in the Middle East. "As the capital of UAE, Abu Dhabi has one of the best performing real estate markets in the MENA region along with a strong Government support for its real estate players. Also Abu Dhabi's real estate investment is projected to grow to AED 600 million by 2030, thus making the Emirate an ideal venue for our event," explained Sumit Pal, Director of iPI Show. The event, which is scheduled from 27th-28th September at Sofitel Hotel, is targeted at Affluent High Net Worth Individuals in Abu Dhabi.

Listaproperty.com's management has expressed its confidence in the success of the show which will carve a niche for itself in UAE's real estate market. "We have noted an increase in property searches in UAE this year as well as an increase in property searches in other MENA countries by UAE residents. Local buyers and investors are confident about the market conditions and look forward to investing in a growing real estate market. At this point of time, an event such as the iPI Show will cater to the real estate needs of all the different sections of the market. We have always believed in exposing our clients and customers to the real estate market developments; and associating with iPI Show fulfills our promise of delivering better marketing opportunities for Property Owners, Agents, Brokers and Developers," said Yasir Abbasi, Business Development Manager of Listaproperty.com.

At the iPI Show, agents and developers will have the opportunity to exhibit at the event and reach out to a wide variety of buyers and investors, while visitors to the exhibition will include Private and Government investment authorities, serious property buyers, real estate professionals and Indian property investors amongst others. The event will be a unique platform for real estate and other related businesses who are looking to target high net worth individuals from the Gulf and South-East Asia region.

Listaproperty.com is an online real estate market, established with the purpose and passion of connecting the real estate community in the region.
